RRP £50*

YD9024-1 1 tablet licence

RRP £20*

Be transported into three soothing natural worlds that invite interaction, curiosity and discussion. The gently rippling rock pool comes alive to touch as crabs scuttle, jellyfish pulse and anemones wave. As you clear the forest floor, snails slide, ladybirds fly and treasure is revealed. Collect apples, discover wildlife and find out what else is waiting to be uncovered as you take a gentle wander round the garden. Each environment can be explored as a live picture with subjects that can be selected to see how they respond, including photographic images and realistic sound effects. Available on iOS, Windows and Android technology.

Learn early maths skills: sorting, counting, matching, ordering, number patterns and bonds, comparing, measuring, logical thinking and problem solving.

These apps celebrate and extend the very best features of our physical resources, as they encourage children to explore, investigate and deepen their understanding of maths in a hands-on way. Allowing children to explore at their own level and gain confidence in their own learning, instant feedback and rewards keep children playfully engaged and enable self-correction. Activities can be set at different levels, catering for different needs and encouraging progressive learning.
