This beautifully simple wooden log has equal-sized holes into which children can count out the appropriate number of sticks from a pile. When placed correctly in the sections, children can easily see the difference between the numbers (cardinality). Each side of the log shows a slightly different range of numerals (1–10 on one side and 0–9 on the other), making it helpful to teach number order and the value of zero. Made from FSC-certified beech wood. Size 465mm and includes 60 counting sticks (60mm).
